Before the Medical Profession almost 30 years, and invariably gives uniform satisfaction.

We respectfully ask thorough testing, strictly *upon its own merits,* to prove the exceptionally high reputation it holds.

Owing to correspondence on the subject, we regret being compelled to caution, that inferior Coca preparations are frequently substituted upon patients, and, as we do not advertise to the public, physicians will kindly be particular to insist on

VIN MARIANI

FORMULA: "VIN MARIANI" is the concentrated extractive of the fresh leaf Erythroxylon Coca, blended with a special quality of Bordeaux Wine. Each half-litre bottle contains the medicinal properties of two ounces of selected leaves.

DOSE: Usually a wine-glassful three times a day, half an hour before meals or immediately after. Increased or diminished, at discretion of the physician.

INDICATED: As a pleasant, mild stimulant, without unpleasant reaction; a diffusible tonic; a strengthener of the nervous system, with especial good effect on the digestive and respiratory organs; convalescence and enfeebled conditions. Effect is immediate and lasting.

NOTE: Extensively used in Hospitals, Cliniques, and private practice, its merits are recorded by the medical press of Europe and America. Uniform excellence and recognized efficacy won the absolute confidence and esteem of every physician who subjected it to test, and it may be affirmed that wherever Coca is indicated "Vin Mariani" invariably receives the preference.

The continual increasing demand is a clear proof of the reliance placed in "Vin Mariani" by the Medical Profession, through whom it has been popularized.

We will be happy to forward, post-paid, to any physician mentioning this journal, a handsomely bound book, detailing formulæ, dose, physiological effects and therapeutic indications of Coca, as also other interesting reading matter connected with the subject by European and American observers.

MARIANI & CO.,

PARIS: { 41 Bd. Haussmann; Laboratory, Neuilly s/Seine.

LONDON: 239 Oxford Street.

52 W. 15TH ST., NEW YORK.

THE FIRST RAW FOOD EXTRACT.

(Introduced to the Medical Profession in 1878.)

BOVININE

THE VITAL PRINCIPLES OF BEEF CONCENTRATED.

CONTAINING 26 PER CENT. OF COAGULABLE ALBUMEN.

AN IDEAL FOOD. PALATABLE. KEEPS PERFECTLY.

BOVININE consists of the Juices of Lean Raw Beef obtained by a mechanical process, neither heat nor acid being used in its preparation. The nutritious elements of lean raw beef are thus presented in a concentrated solution, no disintegration or destruction of the albumen having taken place. The proteids in solution amount to 26 per cent. of the weight of the preparation, and give to it the great dietetic value it possesses in all conditions where a concentrated and readily assimilable food is needed.

BOVININE is easily digested and COMPLETELY absorbed from the intestinal tract, thus furnishing an extremely valuable nutrient in Typhoid Fever, after surgical operations in the abdominal regions, in all diseased conditions of the intestinal tract characterized by ulceration or acute and chronic inflammation, and in diarrhœic complaints.

BOVININE, containing as it does all the nutrient properties of lean raw beef in a highly concentrated form, furnishes to the Medical Profession a reliable and valuable aid to treatment in Phthisis, Marasmus of both young and old, in all wasting diseases, in continued fevers, and in supporting treatment.

BOVININE, on account of its BLOOD-MAKING PROPERTIES is *especially* of service after surgical operations, in cases of severe injuries attended with great loss of blood, and in the puerperal state.

BOVININE, for rectal feeding, is unsurpassed in excellence, having been used for weeks continuously with no irritation or disturbance resulting. The most satisfactory results from its use as an enema are obtained by adding to each ounce of **BOVININE** ten grains of Pancreatic Extract and two ounces of water. This should be well mixed and injected slowly. No preparation of opium is necessary in the enema.

SAMPLES will be furnished to any member of the Medical Profession free, carriage paid, upon application to the company.

Artificial Legs and Arms with Rubber Feet and Hands

MR. A. A. MARKS. DEAR SIR :—I have thoroughly examined the case of the boy Thomas Kehr, of this city, who has been wearing a pair of your Artificial Legs. . . . He was run over by a train of the S. S. R. R., of Long Island, and both of his lower limbs were so crushed that I amputated them, the one well above the knee, the other about one inch and a half below. At the time of the operation many expressed a wish that death would occur, as the lad being poor it was thought that his future would not only be a burden to himself, but that his future support, should he reach man's estate, would depend upon the charity of the public, as it was considered about an impossibility for him to serviceably use Artificial Limbs. I am thankful that I can say that you have made his future worth the living, by giving him the means of good locomotion. I saw him two weeks after he had put them on for the first time, and it astonished me greatly to see the remarkable use he had already acquired; since then I have seen him many times, and have each time seen marked improvement in the freedom of use in walking. Within the past week I saw him walking on the street, without even the help of a cane, and so little lamed that any person seeing him would not for a moment have the least suspicion that he was using legs other than such as nature provided. . . .

I feel competent to say that, in this case, your Artificial Limbs have proved a GRAND SUCCESS. I have never before seen Artificial Limbs which, in action, approached so near that of perfection. I attribute the wonderful success in this boy's case mainly to the superior results achieved by your inventions. Especially can attention be called to the use of the Rubber Foot, thereby dispensing with the ankle joint, thus giving the wearer an ELASTIC, RELIABLE, and SURE FOOTING, which must greatly relieve him from the care and WATCHFULNESS which must certainly be required by those who wear Artificial Limbs having jointed feet. Your plain and simple mode of construction of Artificial Legs is, to my mind, UNQUESTIONABLY the BEST.

Very respectfully, SAMUEL J. BRADY, M.D.,

97 Division Ave., Brooklyn, E.D., New York.

These Limbs are the most Natural, Comfortable, and Durable. Thousands in daily use. U. S. Government Manufacture.

By a copyright formula, furnished by us on request, applicants can supply us with all the data necessary to secure fit and satisfactory results, while they remain at home. One-half the legs and arms furnished by us are made from measurements and profiles, without our seeing the wearers. This new method is a great convenience for those living at a distance. Fit always guaranteed.

A treatise of 400 pages, with 200 illustrations, and a thousand testimonials, sent free of charge. Address

A Theory Demonstrated in Practice,—

THE URIC SOLVENT.

For NEUTRALIZING and ELIMINATING URIC ACID from the BLOOD and thereby removing from the system the disorders caused by it, viz:

DIABETES, BRIGHT'S DISEASE, CYSTITIS, SCIATICA, GOUT, RHEUMATISM, DROPSY, NEURALGIA, AND DISEASES OF THE HEART.

THE URIC SOLVENT is a rational and very effective remedy for all RENAL DISORDERS and those derangements and diseases arising from a defective action of the kidneys. Physicians will find in the URIC SOLVENT a GREAT HELPER in the treatment of the above complaints, it being free from all poisonous drugs. Dispensed by all reliable apothecaries.

. PRICE, $1.00 PER BOTTLE.

For URIC SOLVENT Circular, Formula, Treatment, etc., address,

FRELIGH'S TABLETS,

(Cough and Constituent),

FOR THE PREVENTION AND CURE OF

PULMONARY PHTHISIS.

FORMULÆ.

Cough Tablets.

EACH TABLET CONTAINS

Morph. Sulph. ($\frac{1}{30}$ gr.), Atropiæ Sulph. ($\frac{1}{300}$ gr.), Codeia ($\frac{1}{30}$ gr.), Antimony Tart. ($\frac{1}{25}$ gr.), Ipecac, Aconite, Pulsatilla, Dulcamara, Causticum, Graphite, Rhus-tox, and Lachesis, fractionally so arranged as to accomplish every indication in any form of cough.

Constituent Tablets.

EACH TABLET CONTAINS

Arsenicum ($\frac{1}{30}$ gr.), Precipitate Carb. of Iron, Phos. Lime, Carb. Lime, Silica, and the other ultimate constituents, according to physiological chemistry (normally), in the human organism, together with Caraccas, Cocoa, and Sugar.

PRICE, THREE DOLLARS PER DOUBLE BOX.

Containing sufficient Tablets of each kind to last from one to three months, according to the condition of the patient.

A Connecticut physician writes:

"I am now using your Tablets on a patient (young lady), who has had three quite severe hemorrhages the week previous to the beginning of the same. She has taken one box only, has had no return of the hemorrhage, and has gained four (4) pounds since beginning treatment, besides all rational symptoms have improved wonderfully. I will add that I had tried Ol. Morrh., Syr. Hypophos. Co., etc., with no apparent benefit."

A Virginia physician writes:

"Enclosed find Postal Note for another double box Freligh's Tablets. I used the sample box in three cases, with decided benefit in one, slight improvement in second, and while they did not improve the third case, it being in very advanced stage, there was an amelioration of the distressing symptoms."

A Massachusetts physician, in practice 25 years, writes:

"Send me two double boxes Freligh's Tablets. I have tried the sample box with most excellent results."

A Michigan physician writes:

"I am more than pleased with them. They have not disappointed me once. Dr. C., for whom I ordered a box writes me that he is much improved, and speaks in praise of them. He has genuine Tuberculosis, and while I do not think he can recover, yet I firmly believe the Tablets will prolong his life."

SPECIAL OFFER.

While the above formulæ have been in use, in private practice, over 30 years, and we could give testimonials from well-known clergymen, lawyers, and business men, we prefer to leave them to the unbiased judgment of the profession with the following offer: On receipt of 50 cents, and card, letter-head, bill-head, or other proof that the applicant is a physician in active practice, we will send, delivered, charges prepaid, one of the regular (double) boxes (retail price, Three Dollars), containing sufficient of each kind of Tablets to test them three months (in the majority of cases) in some one case. Card, letter-head, or some proof that the applicant is a physician in active practice, MUST accompany each application. Pamphlet, with full particulars, price-list, etc., on request.

A PHOSPHORIZED

CEREBRO-SPINANT.

(FRELIGH'S TONIC.)

Our Special Offer is still open, to send to any physician, on receipt of 25 cents, and his card or letter head, half a dozen samples, delivered, charges prepaid. Each sample is sufficient to test it for a week in one case.

As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO., Manufacturers of Physicians' Specialties,

88 Maiden Lane, New York City.

PEACOCK'S BROMIDES

(SYR: BROM: COMP: PEACOCK.)

Each fluid drachm represents 15 grains of the Combined C. P. Bromides of Potassium, Sodium, Calcium, Ammonium and Lithium.

USES: EPILEPSY, UTERINE CONGESTION, HEADACHE, AND ALL CONGESTIVE, CONVULSIVE AND REFLEX NEUROSES.

This preparation produces results, which can not be obtained from the use of commercial Bromide substitutes.

DOSE.—One to two FLUID drachms, in WATER, three or more times a day.

PEACOCK'S FUCUS MARINA

(ELIX: FUCI MAR: PEACOCK.)

From Sea Weed. **Uses: Malaria, Phthisis, Etc.**

An ALLY of quinine—quinine CHECKS the Malarial Chill; Fucus Marina ELIMINATES the Malarial CAUSE; and thus prevents the recurrence of the Chill *after* it has been *checked* by quinine.

An INVALUABLE REMEDY in the treatment of Phthisis—it arrests the decay of lung tissue, diminishes the fever, lessens the cough, abates the soreness in the lungs, improves the appetite, and impedes the progressive emaciation.

DOSE.—One Teaspoonful IN WATER, four times a day.

CHIONIA FROM CHIONANTHUS.

Uses: Biliousness, Jaundice, Dyspepsia, Constipation, and all Diseases Caused by Hepatic Torpor.

CHIONIA stimulates the Liver and restores it to a healthy condition, without debilitating the system by Catharsis; does not purge, per se, but under its use the Liver and Bowels gradually resume their normal functions.

DOSE.—One Fluid Drachm three times a day.

PEACOCK CHEMICAL CO., ST. LOUIS.

DR. MASSEY'S
Private Sanitarium
212 SOUTH FIFTEENTH ST.,
PHILADELPHIA.

This institution, in addition to complete arrangements for the treatment of Nervous Diseases by rest, electricity, massage, etc., under comfortable surroundings, is specially equipped for the treatment of cases of Fibroid Tumors and other intractable diseases of the pelvic viscera, by the conservative use of strong electric currents. For particulars, address

DR. C. BETTON MASSEY,

PARRISH'S HOME FOR INVALIDS, at Burlington, N. J.

JOSEPH PARRISH, M.D., Founder and Physician-in-Chief.
WM. G PARRISH, M.D., Associate.

This is emphatically a family home, with the privacy and freedom of domestic life. The patients, being under the counsel and guidance of experienced physicians, may often avoid the alternative of commitment to a public asylum or hospital.

Disappointment, loss of property, grief, mental strain and worry, overwork, excess in the use of stimulants and narcotics, hysteria, are frequently associated with, or complicated by, Neuralgia, Rheumatism, Gout, Dyspepsia, and even Lung troubles, for all of which appliances are available, in the way of Baths—Russian, Medicated, Massage, Electricity, etc., and the *Oxygen Treatment*, the value of which in incipient Throat and Lung Diseases is generally conceded. An attractive feature of the ome treatment is the removal of the family during the summer to a country seat in the vicinity, or to the seaside, mountains, or other resort, accompanied by the superintendent and staff.

Terms are arranged with or for each person according to circumstances and requirements. For further information, call on or address

JOSEPH PARRISH, M.D., Burlington, N. J.

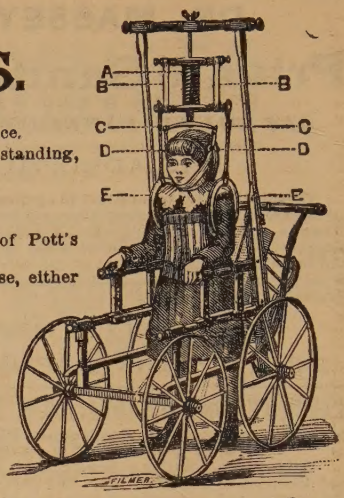
DR. MEIGS CASE'S

SPINAL APPARATUS.



MEANS AFFORDED.

1. Appropriate exercise under elast'c extension, with no restrictive appliance.
2. Continued extension made endurable by change in position, sitting, standing, or walking.
3. Perfect support, balance, and guidance in locomotion.

RESULTS OBTAINED.

1. The absolute and speedy cure, without deformity, of recent cases of Pott's Disease and Lateral Curvature.
2. Immediate relief, followed by permanent cure, in acute Pott's Disease, either before or after supervention of abscess or paraplegia.
3. Deformity lessened, and attending complications alleviated in all chronic curvatures in adults or youth.
4. Normal growth stimulated in children dwarfed by disease.
5. Spinal irritation relieved, and ultimately, with its causes, removed.
6. Remarkable improvement in the condition of children suffering from defective innervation, lack of muscular power or nervous inco-ordination, with inability to articulate distinctly and to control the use of the limbs.

These claims are not merely theoretical; they have been abundantly established by actual use of the apparatus.

Fig. 1.

THE "MASTER"

SURGICAL ELASTIC STOCKINGS,

FOR VARICOSE VEINS, WEAK AND SWOLLEN JOINTS, DROPSY OF THE LIMBS, SPRAINS, ETC.

Provided with the Patent Non-Elastic **STAYS AND ADJUSTING LOOPS**, by the aid of which they can be drawn on easily, like pulling on a boot. They will last much longer than the old style, as the stays prevent them from being torn apart in drawing them on. All kinds and sizes in thread or silk elastic.

Fig. 1.—The Old Style discarded on account of pulling apart, while the elastic is still in good condition.
Fig. 2.—The New Style cannot pull apart and consequently lasts until worn out.

FOR PRICE-LIST AND FULL PARTICULARS IN REGARD TO SPINAL APPARATUS AND ELASTIC STOCKINGS, APPLY TO

POMEROY COMPANY, 785 BROADWAY, N. Y.

BROMIDIA

THE HYPNOTIC.

FORMULA.—Every fluid drachm contains fifteen grains EACH of Pure Chloral Hydrat. and purified Brom. Pot. and one-eighth grain EACH of gen. im. ext. Cannabis Ind. and Hyoscyam.

DOSE.—One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or Pain-relieving Principle of Opium, the Narcotic and Convulsive Elements being Eliminated. It has Less Tendency to Cause Nausea, Vomiting, Constipation, etc.

INDICATIONS.—Same as Opium or Morphia.

DOSE.—ONE FLUID DRACHM—(represents the Anodyne principle of one-eighth grain of Morphia.)

IODIA

THE ALTERATIVE AND UTERINE TONIC.

FORMULA.—Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—One or two fluid drachms (more or less as indicated) three times a day, before meals.

INDICATIONS.—Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions and General Uterine Debility.

Only advertised in Medical and Pharmaceutical prints.

Definite Chemical Compounds

OF SUPERIOR THERAPEUTIC VALUE.

THE NEW HYPNOTIC:

CHLORALAMID—Schering.

As a safe and reliable hypnotic Chloralamid is taking a foremost place. Even in cases where the patients have suffered from painful diseases, sleep has been successfully induced by its administration; the effect is different from that of soporifics, in that it is light, refreshing, and free from after symptoms. In epilepsy it has been recently shown to be superior to other remedies generally adopted. The dose varies from 15 to 40 grains, and the hypnotic effect is produced within half-an-hour. It is noteworthy that the action of the drug is not deferred, and no craving for it seems to be excited, even by prolonged administration. According to Dr. John Gordon (*Therapist*, 1891, No. 6), Chloralamid proved highly satisfactory in senile insomnia, pulmonary diseases, and hysteria. Another recent contribution to our knowledge of Chloralamid calls attention to its value in quieting the nervous system, and inducing sleep after severe operations. (*Therapist.*)

THE NEW ANTIPYRETIC:

PHENOCOLL Hydrochloride—Schering.

Among antipyretics this compound is destined to take a foremost place by virtue of its free solubility which enables it to be very conveniently given and also ensures its prompt and ready absorbtion. According to von Mering 8 grains reduced the febrile temperature as much as 12 to 16 grains of Antipyrin. Hertel gave Phenocoll hydrochloride in powder form (in wafer), 1¼ drachms being divided over the 24 hours. In severe articular rheumatism with some fever the remedy has exerted a beneficial action upon the swollen joints, when all other remedies have failed. (*Therapist.*)

THE NEW URIC ACID SOLVENT:

PIPERAZINE—Schering.

The most characteristic property of this compound is its power of dissolving uric acid and forming a comparatively freely soluble urate. It takes up in the cold twelve times as much uric acid as carbonate of lithium under the same conditions, and the salt formed (always the neutral urate, even in the presence of excess of acid) is taken up by one-seventh of the volume of water required to dissolve the same quantity of lithium urate. The experience of a number of authors is sufficiently encouraging to justify confidence in the specific curative effect of the remedy Dr. Umpfenbach believes the compound may prove a valuable diuretic, while seme observers record tonic and stimulant effects. The dose is 15 grains per day, divided in acceptable doses, or dissolved in a quart of mineral water which patient may drink *ad libitum*.

PURE STRONTIUM SALTS

(PARAF-JAVAL)

RECOMMENDED AT THE FRENCH ACADEMY IN

BRIGHT'S DISEASE, DILATATION OF THE STOMACH, EPILEPSY, Etc.

Strontium Salts, (Paraf-Javal) are non-toxic and free from traces of Barium; they are the only ones employed at the Paris Hospitals.

SOLUTION OF
LACTATE OF STRONTIUM.
(PARAF-JAVAL.)

SOLUTION OF
BROMIDE OF STRONTIUM.
(PARAF-JAVAL.)

These solutions are put up in 3 x original bottles containing 3*j* to the fluid ounce, and their purity is guaranteed by the signature of *Paraf-Javal* on the labels.

APIOLIN-CHAPOTEAUT.

(The true active principle of Parsley).

In DYSMENORRHŒA

Dr. Richard Hill before the Washington Medical Society, January 1891, stated that it was decidedly the most reliable agent he had yet used in spasmodic and congestive dysmenorrhœa.

In AMENORRHŒA

Fordyce Barker found the active principle of parsley of great value in Amenorrhœa, given daily a week antecedent to expected menstruation. (*Shoemaker's Materia Med.*)

Dispensed in spherical capsules of 20 centigrammes. Dose: 2 daily.

OL. SANTAL-MIDY.

For gonorrhoea and all forms of urethritis. It replaces copaiba, cubebs, and other remedies, without producing eructations, offensive odor or diarrhœa. The discharge is reduced to a slight oozing in forty-eight hours. It cures the most obstinate cases of cystitis and inflammation of the neck of the bladder.

Dr. Posner stated before the Berlin Medical Society: "The best form was the French preparation known as ***Santal-Midy.***—*Medical Record.*

Dose: 6 to 12 capsules daily. Original bottles contain 40 capsules.

The above are manufactured in the laboratories of

RIGAUD & CHAPOTEAUT, Paris.

New York Depot: E. FOUGERA & CO., 30 N. William Street.

From whom samples and literature may be obtained on application.

COALTAR SAPONINÉ
(LE BEUF)

EMULSION OF COALTAR

An Emollient and Antiseptic Surgical Dressing

of great purity which has been successfully used in the principal Hospitals and by the leading Physicians of France in the treatment of abrasions,contusions, burns, gangrene ulcerations, suppurative wounds—such Skin Diseases as eczema, herpes, psoriasis and scabies—in vaginitis, metritis, diphtheritic pharyngitis, inflammations of the mucous surfaces and wounds of every description. Drs. Siredey, Bouchut, Courty, Broca, Lemoine, Michon, Blache, Beau, Foucher, Lemaire and many other leading surgeons of France and other countries have sent unsolicited testimonials. It is not only

A Succedaneum for Iodoform and Carbolic Acid

or Bichloride Solutions, but is superior to them because it has no toxic action, is not irritating or caustic and has no offensive odor.

Physicians should write for "Coaltar Saponiné —Le Beuf."  The inventor's signature is printed on each genuine package.

VIN IODOTANÉ NOURRY

IODINE and TANNIN in WINE

A Substitute for Cod Liver Oil

Iodinated Wine (Nourry) is a preparation in which Iodine is really combined with Tannin. Its richness in Iodine, its pleasant flavor, its stability, and (on account of the action of the Tannin) its being so perfectly well supported by the most delicate stomachs and so easy of assimilation render it the most effective and agreeable form in which Iodine can be administered. The Iodinated Wine (Nourry) would therefore suggest itself for

Use whenever Iodine is indicated

It has been found superior to Cod Liver Oil, especially in children's maladies. It is recommended in phthisis, la grippe, anaemia, rheumatism, bronchitis, asthma, emphysema and chronic catarrh by such eminent French physicians as Drs. Dujardin-Beaumetz, Féréol, Huchard, de Saint-Germain, Simon, Sevestre, Gibert, Moizard and Abadie.

To avoid substitution "Vin (Iodotané) Nourry" and should exact physicians should write the manufacturer's signature.

Send for pamphlet to

E. FOUGERA & CO., NEW YORK

Mention this Journal

TO THE MEDICAL PROFESSION.

During the past seven years we have been laboring assiduously to produce *Infant Foods* ready for use that would closely resemble healthy human milk. It has not been an easy task, as every physician knows who has taken a special interest in the subject. We have spared neither labor nor expense to accomplish this object, which will be demonstrated to any Physician who will visit our factory. We have met the more recent demand for a *sterilized Food for Infants* by an expensive change in our machinery under the supervision of the most eminent Bacteriologists in the country. This sterilization has been accomplished without rendering the casein of the milk less digestible, as is invariably done with the patented sterilizers in use. It also insures, with the hermetically sealed cans, their perfect keeping qualities.

We do not think it possible that any *Infant Food* will ever be prepared that will excel **LACTO-PREPARATA** (an all milk food) for the feeding of young infants, and **CARNRICK'S FOOD** for their nourishment during the latter part of the nursing period. All other *Infant Foods* in the market are composed entirely of the cereals; or they contain so little milk (8 per cent.) that it is a misnomer to call them Milk Foods. If such foods are used alone, the child will not be properly nourished, its flesh will be flabby, and it will quickly succumb to disease, because they are deficient in albuminoid constituents.

Send for circulars and samples.

KUMYSGEN

Make your own KUMYSS in one minute.

A Product of Pure, Sweet Milk.

What is Kumysgen?

It is *Kumyss* in a dry form containing all the constituents of the best *Kumyss*, and requires only the addition of water to produce an article superior in digestibility and palatability to the old form of *Kumyss*.

It is the *Ideal Food* in all cases where nutrition is an important factor, and digestion is feeble.

When all other Foods fail try **Kumysgen,** but it is better to try it in the beginning and save time and strength.

Kumysgen is the only preparation of *Kumyss* that will keep. All liquid preparations of *Kumyss* will keep but a short time, and are constantly changing in the bottle, unless some deleterious preservative is used.

Kumyss made from **Kumysgen** is far more palatable, easier digested, and 35 per cent. less expensive than the old style **Kumyss.**

Our **Siphon Kumysgen Bottles** allow *Kumyss* to be drawn without loss of contents. One in every three bottles are *siphons*, containing same quantity of KUMYSGEN as the others. Send for samples and descriptive circulars.

Manufactured Only by

REED & CARNRICK, New York.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE:

ANTISEPTIC, PROPHYLACTIC, DEODORANT.

LISTERINE

NON-TOXIC, NON-IRRITANT, NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request:

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

TO PHYSICIANS: This preparation has been in constant use by many prominent practitioners of medicine for several years, and its beneficial results in the treatment of the diseases indicated, including Syphilitic troubles, have been fully established.

When ordering this preparation, in order to avoid delay or misunderstanding, physicians will please specify "GRIFFITH & CO.'S," or physicians in this city can send their patients direct to our pharmacies, at No. 67 Third Avenue, cor. 11th Street, or 2241 Third Avenue, cor. 122d Street, New York, where, at any time, further information will be cheerfully furnished. Out of town physicians can order through their druggists or direct from us.

We have hundreds of testimonials from prominent physicians who have prescribed and personally used this mixture. It is manufactured for PHYSICIANS' PRESCRIPTIONS only. Always specify "GRIFFITH & CO.'S." If you have an obstinate case of Rheumatism under treatment, inclose one dollar and receive, by express, a regular size bottle, or we will send, upon request, a sample bottle, providing you will pay express charges.

WHOLESALE PRICE LIST.

8-ounce size, - - - $10.50 per doz.
16-ounce size, - - - $20.00 per doz.

In lots of one dozen and upward, we pay the express charges to points east of the Rocky Mountains.

GRIFFITH & CO.'S COMPOUND MIXTURE OF GUAIAC, STILLINGIA, ETC.

After ten years of thorough trial is now considered by Physicians to be the standard remedy for Acute and Chronic Rheumatism, Gout, Lumbago, Neuralgia, and Kindred Complaints.

(Do not overlook this offer, for you may be pleased and possibly surprised at the result, for the general verdict of the profession is, that if this remedy fails to act on a case, it is a difficult matter to find anything that will.)

P. S.—The advertising of this article is confined strictly to Medical Journals.

Very respectfully,

GRIFFITH & CO.,
Chemists and Pharmacists,
67 Third Avenue, cor. 11th Street,
2241 Third Avenue, cor. 122d Street, NEW YORK CITY.

Carried in stock by the principal Wholesale Druggists in the U. S.

In absence of anything better, try the above remedy in cases of "La Grippe."

Platt's Chlorides,

The True Disinfectant.

Eleven years of practical daily use, by tens of thousands of intelligent physicians, and by hundreds of thousands of careful housekeepers, has established beyond doubt the value, the usefulness, and the superiority of Platt's Chlorides.

An odorless liquid, clean, stainless, powerful, efficient, and economical, it is peculiarly adapted to all the sanitary needs of the sick-room, and the hygienic demands of the household.

Platt's Chlorides is sold in quart bottles only, and by nearly every apothecary in every city, town or village in the United States. Should there be any practicing physician anywhere who m aynot as yet personally know its value, a sample with descriptive circulars, etc., will be gladly furnished free. Address, giving both Post and Express Offices,

HENRY B. PLATT, 36 Platt St., N. Y.

JOHNSTON'S FLUID BEEF.

This preparation of beef has won the favor of medical men and others who have witnessed its beneficial effects. Whilst all other extracts of beef contain only the soluble elements of the flesh, and are, therefore, useful only for their *stimulating* effects on the system, JOHNSTON'S EXTRACT (or FLUID BEEF) contains within itself the entire *nutritive* properties of the best beef, assuring both the *stimulating* and *strengthening* properties of a meat diet.

It is *unmedicated*, and is not offered as in any sense a medicine. Dr. Harkness, whose analysis we present, pronounces JOHNSTON'S FLUID BEEF a *perfect food.*

By WM. HARKNESS, F.C.S.L., Analytical Chemist to the British Government.

LABORATORY, Somerest House, London, Eng.

I have made a very careful chemical analysis and microscopical examination of JOHNSTON'S FLUID BEEF, and find it to contain in every 100 parts—

Moisture,	26.14	
Albumen and Gelatin,	21.81	Nitrogenous or
Fibrin in a readily-soluble form,	37.48	flesh-forming food.
Ash or Mineral Matter,	14.57—100.00.	

The mineral matter is rich in phosphates. The microscopical examination shows the FLUID BEEF to contain good sound beef, ground to a very fine powder. There is not the slightest trace of fungus, spores, or any other organism which would tend to produce decomposition. I consider this a most valuable preparation, *combining, as it does, a concentrated Extract of Beef with the solid beef itself,*—the latter being in a form easily digested.

JOHNSTON'S FLUID BEEF IS A SUBSTANTIAL FOOD FOR BRAIN, NERVE, BONE AND MUSCLE.

JOHNSTON'S FLUID BEEF IS THE HIGHEST FORM OF NUTRIMENT ADAPTED TO THE FEEBLEST DIGESTIVE POWERS.

Many of our most eminent physicians are prescribing this Extract, and have testified their satisfaction as to the results obtained. GENERAL AGENTS FOR THE UNITED STATES,

NERVOUS EXHAUSTION.

HORSFORD'S ACID PHOSPHATE.

Recommended as a restorative in all cases where the nervous system has been reduced below the normal standard, by overwork, as found in brain-workers, professional men, teachers, students, etc., in debility from seminal losses, dyspepsia of nervous origin, insomnia where the nervous system suffers.

It is readily assimilated and promotes digestion.

Dr. B. H. Boyd, Lafayette, Ind., says: "I have used it in several cases of nervous exhaustion, with uniformly good results."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.
Prepared under the direction of Prof. E. N. Horsford, by the

RUMFORD CHEMICAL WORKS, Providence, R. I.

BEWARE OF SUBSTITUTES AND IMITATIONS.

CAUTION:—Be sure the word "HORSFORD'S" is PRINTED on the label. All others are spurious.
NEVER SOLD IN BULK.

Crayons.

If you want a "thing of beauty and a joy forever" in your house, we most heartily commend you to the Tauquerey Portrait Society, 751 De Kalb Avenue, Brooklyn, N. Y. The crayon work done by this firm is not only absolutely true, but bears every evidence of artistic taste and skill. This, combined with courteous treatment and reasonable prices, has secured them a class of patronage they may well be proud of.

Proper Disinfectants.

It is at least always wise to be on the safe side, if that side is to be gained, and in no instance is this of more concern than the health of the household.

Proper disinfectants, properly used at different periods, certainly do tend to prevent the causes of many diseases, and the expense of their frequent use is so trivial it would seem as if in every well-kept household the use of a disinfectant would be second to nothing but soap.

The odorless yet powerful solution so widely known as Platt's Chlorides well deserves the title "the proper household disinfectant." It certainly should be known and liberally used by every well-meaning physician and householder.

New Directory.

George Keil, 1715 Willington Street, Philadelphia, announces the early publication of the "Medical and Dental Register-Directory and Intelligencer," for the States of Pennsylvania, New Jersey, and Delaware. It will present not only a complete list of all medical and dental practitioners in the States named, with place and date of graduation, but also lists of professional educational institutions, hospitals, societies, etc., etc., and will be of much practical value to all members of these professions. The profession will please note that the work is now in press, and it is requested that any removals or changes of address be forwarded the publisher.

The New "Century Columbia."

The following complimentary notice was published in the last issue of Sporting Life, of Philadelphia:—

"The new Century Columbia is winning golden opinions among local riders of prominence who have had the pleasure of testing the machine.

"It has now been ridden upward of 800 miles during the four weeks that have elapsed since it was received by the Hart Cycle Company, and the tires *have not been re inflated during all that time.* Although the wheel has been put to some severe tests in being ridden over the worst roads in this section, and by some of our hardest road riders, yet the tires are very nearly as firm as when it was first received, and would be good for many a mile yet.

"If all of the tires which the Pope Company intend equipping their '92 safeties with will stand as well as these have done, the tire question need not cause the American rider to lie awake nights."

Infant Foods.

We desire to call the attention of our readers to the new advertisement of Reed & Carnrick on page 14.

This firm have spared neither labor or expense to perfect their Infant Foods in keeping qualities by sterilization and by placing them in hermetically sealed containers. They claim that Lacto-Preparata, an all-Milk Food, for young infants, and Carnrick's Food, composed of half Lacto-Preparata and half dextrinized wheat, for use after six months of age, have now practically reached perfection in keeping qualities, and that they are the only Infant Foods in the market that will alone thoroughly nourish a child during the nursing period. Their Lacto-Preparata almost perfectly resembles human milk in character, composition, and taste.

"Advertiser's Handy Guide."

The eighth issue of Bates's Advertiser's Handy Guide is now out, in an enlarged and improved form. It is emphatically the "Advertiser's Handy Guide," as it presents in compact form all information essential to advertisers in selecting the mediums which they may desire to use. Morning, Evening, Sunday, and Weekly papers and Monthly publications, with their real or supposed circulations, and political or other characteristics, are stated, all in a sufficiently comprehensive way. The circulation of this volume will prove of great value to the publications listed, and almost invaluable to those enterprising houses who dispense advertising patronage, the busy heads of which have no time to examine with needed care more extensive publications of this nature. It will be mailed to any address on receipt of $2, by the Publisher, J. H. Bates, 38 Park Row, New York.

Chloralamid.

Dr. Chas. C. Browning, of the New York City Asylum for the Insane, Blackwell's Island, writes: "In reply to the inquiry regarding the use of Chloralamid in my practice, permit me to say that results have been satisfactory, and I have continued to use it ever since I became acquainted with this new hypnotic."

The Medical Times, New York, writes: "Chloralamid in Chronic Chorea."—Chronic chorea is now being successfully treated by inducing upon the patient a condition of almost constant sleep for a period of some two weeks, from time to time allowing intervals of consciousness, that nourishment may be taken. The hypnotic most recommended is Chloralamid, in 15-grain doses, and repeated sufficiently often to maintain a constant effect.

ST. LUKE'S HOME FOR THE SICK
DR. HUNTER McGUIRE'S PRIVATE HOSPITAL
RICHMOND, VIRGINIA.

DR. HUNTER McGUIRE,

Richmond, Virginia,
says:

"Whatever may be the published analysis of Spring No. 2, I know from the constant use of it personally, and in my practice during many years past, that the results obtained from the use of

BUFFALO LITHIA WATER

are far beyond those which would be warranted from the analysis given. I am of the opinion that it either contains some powerful remedial agent, as yet undiscovered by medical science, or

Its Elements are so Delicately Combined

in Nature's laboratory, that they defy the utmost skill of the chemist to solve the secret of their power."

"It has never failed me as a powerful Nerve Tonic. I sometimes think it must contain Hypophosphites of Lime and Soda."

Water in cases of one dozen half-gallon bottles, $5.00, f. o. b. here. For sale by all first-class druggists.

QUICKINE

OUR NEW ANTISEPTIC, ANTIPYRETIC AND ANTIZYMOTIC.

IS RAPIDLY COMING INTO DAILY USE.

DR. CHICHESTER writes: "I get splendid results from its use. Quickine is a great convenience, of inestimable value in a physician's office."

DR. J. B. CONKLIN writes: "It has no equal."

DR. F. E. MILLER writes: "Every physician in the civilized world will be glad to use it"

We have received reports already from over 1000 physicians recommending the use of QUICKINE in diseases of the throat, nose, eye, and ear, parasitical skin diseases, sores, ulcers, etc., used externally as a spray, gargle, injection, wash, etc., and in the various fevers and germ diseases used internally.

QUICKINE is put up in one style only, 8 oz. bottles, and we guarantee its absolute accuracy and uniformity. It is pronounced an ideal remedy for a physician's use, both in his office business and in prescribing. Is advertised strictly and only to the medical profession, and sold by first class druggists everywhere at about 40 cents a bottle. Pamphlet and testimonials mailed free. DR. McMUNN'S

Elixir of Opium.

AN INVALUABLE DISCOVERY IN THE PREPARATION OF OPIUM.

It contains all the valuable medicinal properties of Opium in natural combination, to the exclusion of all its noxious, deleterious, useless principles upon which its bad effects depend. It possesses all the sedative, anodyne, and antispasmodic powers of Opium: To produce sleep and composure, to relieve pain and irritation; nervous excitement and morbid irritability of body and mind; to allay convulsive and spasmodic actions, etc; and being purified from all the noxious and deleterious elements, its operation is attended by no sickness of the stomach no vomiting, no costiveness, no headache, nor any derangement of the constitution or general health. Hence its high superiority over Laudanum, Paregoric, Black Drop, Denarcotized Laudanum., and every other Opiate preparation.

CAUTION.

On account of its large sale, spurious articles are offered in bulk. The genuine is sold only in vials of about 7 drachms, with yellow wrappers and signature of Jno. B. McMunn.

Enables nursing mothers whose milk is scanty or poor to yield a copious supply of excellent milk in three days. Acts by improving nutrition. Formula on every bottle. Prepared by *Nutrolactis Company*, New York City. A full-sized bottle, value $1.00, free to any physician paying express charges on delivery. Please mention this journal.

FREE CRAYON PORTRAITS AND FRAMES

To all our Subscribers for 1892.

We, the publishers of "North American Homes," in order to increase the circulation of our journal throughout the United States and Canada, will spend this year over **one hundred thousand dollars** among our new subscribers in the form of an artistic Crayon Portrait and a handsome frame (as per cut below), to be made **free of charge** for every new subscriber to **"North American Homes."** Our family journal is a monthly publication consisting of 16 pages, filled with the best literature of the day, by some of the best authors, and is worthy of the great expense we are doing for it. Eight years ago the *New York World* had only about 15,000 daily circulation; to-day it has over 300,000. This was obtained by judicious advertisement and a lavish expenditure of money. What the proprietor of the *N. Y. World* has accomplished we feel confident of doing ourselves. We have a large capital to draw upon, and the **handsome premium** we are giving you will certainly give us the largest circulation of any paper in the world. The money we are spending now among our subscribers will soon come back to us in increased circulation and advertisements. The Crayon Portrait we will have made for you will be executed by the largest association of artists in this city. Their work is among the finest made, and **we guarantee** you an artistic Portrait and a perfect likeness to the original. There is nothing more useful as well as ornamental than a handsome framed Crayon Portrait of yourself or any member of your family; therefore this is a chance in a lifetime to get one already framed and ready to hang in your parlor **absolutely free of charge.**

READ THE FOLLOWING GRAND 30 DAYS' OFFER:

Send us $1.50, price for one year subscription to "North American Homes," and send us also a photograph, tintype or daguerrotype of yourself or any member of your family, living or dead, and we will make you from same an artistic half **life size Crayon Portrait,** and put the Portrait in a good substantial **gilt or bronze frame of 2 inch moulding absolutely free of charge;** will also furnish you a genuine French glass, boxing and packing same **free of expense.** Cut this out and send it with your photograph at once, also your subscription, which you can remit by Draft, P. O. Money Order, Express Money Order, or Postal Note, made payable to

IMPORTANT ANNOUNCEMENT. **IN PREPARATION.**

PSYCHOPATHIA SEXUALIS,

WITH ESPECIAL REFERENCE TO

Contrary Sexual Instinct.

BY

Dr. R. von KRAFFT-EBING,

Professor of Psychiatry and Neurology in the University of Vienna.

Authorized Translation of the Seventh German Edition

BY

CHARLES GILBERT CHADDOCK, M.D.,

Assistant Medical Superintendent Northern Michigan Asylum; Fellow of the Chicago Academy of Medicine.

Prof. von Krafft-Ebing's study of the psychopathology of the sexual life was, when first published, a small monograph; but in the seven editions through which it has passed so rapidly it has received so many additions and been made to cover so completely every aspect of the anomalies of the sexual sphere that the work now deserves the name of a treatise. It easily supersedes all previous attempts to treat this important subject scientifically; and it is sure to commend itself to members of the medical and legal professions as a scientific explanation of many social and criminal enigmas to which no work in English offers a solution.

The work will be sold only by SUBSCRIPTION to MEMBERS OF THE MEDICAL AND LEGAL PROFESSIONS.

THE F. A. DAVIS COMPANY, Publishers,

1231 Filbert Street, Philadelphia, Pa.

Medical Publications of F. A. Davis, Philadelphia.

CAPP

The Daughter. Her Health, Education, and Wedlock.

HOMELY SUGGESTIONS TO MOTHERS AND DAUGHTERS.

By WILLIAM M. CAPP, M.D., Philadelphia. This is just such a book as a family physician would advise his lady patients to obtain and read. It answers many questions which every busy practitioner of medicine has put to him in the sick-room at a time when it is neither expedient nor wise to impart the information sought.

It is complete in one beautifully printed (large, clear type) 12mo volume of 150 pages. Attractively bound in Extra Cloth.

Price, post-paid, in the United States and Canada, $1.00, net; In Great Britain, 5s. 6d.; France, 6 fr. 20.

In the 144 pages allotted to him he has compressed an amount of homely wisdom on the physical, mental, and moral development of the female child from birth to maturity which is to be found elsewhere in only the great book of experience. It is, of course, a book for mothers, but is one so void of offense in expression or ideas that it can safely be recommended for all whose minds are sufficiently developed to appreciate its teachings.—*Philadelphia Public Ledger.*

Many delicate subjects are treated with skill and in a manner which cannot strike any one as improper or bold. The absolute ignorance in which most young girls are allowed to exist, even until adult life, is often productive of much misery, both mental and physical. Quite a number of books written by physicians for popular use have been prepared in such a way that the professional man can read between the lines strong bids for popular favor, etc. These objectionable features will not be found in Dr. Capp's *brochure*, and for this reason it is worthy the confidence of physicians.—*Medical News.*

CATHELL

Book on the Physician Himself

AND THINGS THAT CONCERN HIS REPUTATION AND SUCCESS.

By D. W. CATHELL, M.D., Baltimore, Md. Being the NINTH EDITION (enlarged and thoroughly revised) of the "Physician Himself, and what he should add to his Scientific Acquirements in order to Secure Success." In one handsome Octavo Volume of 298 pages, bound in Extra Cloth.

Thousands of physicians have won success in their chosen profession through the aid of this invaluable work.

This remarkable book has passed through eight (8) editions in less than five years. It has just undergone a thorough revison by the author, who has added much new matter covering many points and elucidating many excellent ideas not included in former editions.

Price, post-paid, in the United States and Canada, $2.00, net; in Great Britain, 11s. 6d.; France, 12 fr. 40.

I am most favorably impressed with the wisdom and force of the points made in "The Physician Himself," and believe the work in the hands of a young graduate will greatly enhance his chances for professional success.—*From Prof. D. Hayes Agnew, Phila., Pa.*

We strongly advise every actual and intending practitioner of medicine or surgery to have "The Physician Himself," and the more it influences his future conduct the better he will be.—*From the Canada Medical and Surgical Journal, Montreal.*

In the present edition the entire work has been revised and some new matter introduced. The publisher's part is well done; paper is good and the print large; altogether it is a very readable and enjoyable book.—*Montreal Medical Journal*

We have read it carefully and regret much that we had not done so earlier and followed its precepts. The book is full of good advice. Get it at once.—*Pacific Record of Medicine and Surgery.*

We cannot imagine a more profitable investment for the junior practitioner than the purchase and careful study of "The Physician Himself."—*Occidental Medical Times.*

To the physician who has discovered that there is something else besides dry book-learning needed to make him a desirable visitor at the bedside, we commend this volume, that he may assimilate some of the ready crystallized worldly wisdom which otherwise he may be many years acquiring by natural processes.—*North Carolina Medical Journal.*

Medical Publications of F. A. Davis, Philadelphia.

GOODELL

Lessons in Gynecology.

By WILLIAM GOODELL, A.M., M.D., etc., Professor of Clinical Gynecology in the University of Pennsylvania.

This exceedingly valuable work, from one of the most eminent specialists and teachers in gynecology in the United States, is now offered to the profession in a much more complete condition than either of the previous editions. It embraces all the more important diseases and the principal operations in the field of gynecology, and brings to bear upon them all the extensive practical experience and wide reading of the author. It is an indispensable guide to every practitioner who has to do with the diseases peculiar to women. Third Edition. With 112 illustrations. Thoroughly revised and greatly enlarged. One volume, large octavo, 578 pages.

Price, in United States and Canada, Cloth, $5.00; Full Sheep, $6.00. Discount, 20 per cent., making it, net, Cloth, $4.00; Sheep, $4.80. Postage, 27 cents extra. Great Britain, Cloth, 22s. 6d.; Sheep, 28s., post-paid. France, 30 fr. 80.

It is too good a book to have been allowed to remain out of print, and it has unquestionably been missed. The author has revised the work with special care, adding to each lesson such fresh matter as the progress in the art rendered necessary, and he has enlarged it by the insertion of six new lessons. This edition will, without question, be as eagerly sought for as were its predecessors.—*American Journal of Obstetrics.*

His literary style is peculiarly charming. There is a directness and simplicity about it which is easier to admire than to copy. His chain of plain words and almost blunt expressions, his familiar comparison and homely illustrations, make his writings, like his lectures, unusually entertaining. The substance of his teachings we regard as equally excellent.—*Philadelphia Medical and Surgical Reporter.*

Extended mention of the contents of the book is unnecessary; suffice it to say that every important disease found in the female sex is taken up and discussed in a commonsense kind of a way. We wish every physician in America could read and carry out the suggestions of the chapter on "the sexual relations as causes of uterine disorders—conjugal onanism and kindred sins." The department treating of nervous counterfeits of uterine diseases is a most valuable one.—*Kansas City Medical Index.*

GUERNSEY

Plain Talks on Avoided Subjects.

By HENRY N. GUERNSEY, M.D., formerly Professor of Materia Medica and Institutes in the Hahnemann Medical College of Philadelphia; author of Guernsey's "Obstetrics," including the Disorders Peculiar to Women and Young Children; Lectures on Materia Medica, etc. The following Table of Contents shows the scope of the book:

CONTENTS.—Chapter I. Introductory. II. The Infant. III. Childhood. IV. Adolescence of the Male. V. Adolescence of the Female. VI. Marriage: The Husband. VII. The Wife. VIII. Husband and Wife. IX. To the Unfortunate. X. Origin of the Sex. In one neat 16mo volume, bound in Extra Cloth.

Price, post-paid, in the United States and Canada, $1.00; Great Britain, 6s.; France, 6 fr. 20.

Medical Publications of F. A. Davis, Philadelphia.

MASSEY

Electricity in the Diseases of Women.

WITH SPECIAL REFERENCE TO THE APPLICATION OF STRONG CURRENTS.

By G. BETTON MASSEY, M.D., Physician to the Gynæcological Department of the Howard Hospital; late Electro-therapeutist to the Philadelphia Orthopædic Hospital and Infirmary for Nervous Diseases; Member of the American Neurological Association, of the Philadelphia Neurological Society, of the Franklin Institute, etc. SECOND EDITION. Revised and Enlarged. With New and Original Wood-Engravings. Handsomely bound in Dark-Blue Cloth. 240 pages. 12mo. *No. 5 in the Physicians' and Students' Ready-Reference Series.*

This work is presented to the profession as the most complete treatise yet issued on the electrical treatment of the diseases of women, and is destined to fill the increasing demand for clear and practical instruction in the handling and use of strong currents after the recent methods first advocated by Apostoli. The whole subject is treated from the present stand-point of electric science *with new and original illustrations*, the thorough studies of the author and his wide clinical experience rendering him an authority upon electricity itself and its therapeutic applications. The author has enhanced the practical value of the work by including *the exact details* of treatment and results in a number of cases taken from his private and hospital practice.

Price, post-paid, in the United States and Canada, $1.50, net; in Great Britain, 8s. 6d.; in France, 9 fr. 35.

A new edition of this practical manual attests the utility of its existence and the recognition of its merit. The directions are simple, easy to follow and to put into practice; the ground is well covered, and nothing is assumed, the entire book being the record of experience.—*Journal of Nervous and Mental Diseases.*

It is only a few months since we noticed the first edition of this little book; and it is only necessary to add now that we consider it the best treatise on this subject we have seen, and that the improvements introduced into this edition make it more valuable still.—*Boston Medical and Surgical Journ.*

The style is clear, but condensed. Useless details are omitted, the reports of cases being pruned of all irrelevant material. The book is an exceedingly valuable one, and represents an amount of study and experience which is only appreciated after a careful reading.—*Medical Record.*

MANTON

Childbed; Its Management; Diseases and Their Treatment.

By WALTER P. MANTON, M.D., Visiting Physician to the Detroit Woman's Hospital; Consulting Gynæcologist to the Eastern Michigan Asylum; President of the Detroit Gynæcological Society; Fellow of the American Society of Obstetricians and Gynæcologists, and of the British Gynæcological Society; Member of Michigan State Medical Society, etc. In one neat 12mo volume, *No. in the Physicians' and Students' Ready-Reference Series.* IN PREPARATION.

Medical Bulletin.

Medical Publications of F. A. Davis, Philadelphia.

KEATING and EDWARDS

Diseases of the Heart and Circulation.

IN INFANCY AND ADOLESCENCE. WITH AN APPENDIX ENTITLED "CLINICAL STUDIES ON THE PULSE IN CHILDHOOD."

By JOHN M. KEATING, M.D., Obstetrician to the Philadelphia Hospital, and Lecturer on Diseases of Women and Children; Surgeon to the Maternity Hospital; Physician to St. Joseph's Hospital; Fellow of the College of Physicians of Philadelphia, etc.; and WILLIAM A. EDWARDS, M.D., Instructor in Clinical Medicine and Physician to the Medical Dispensary in the University of Pennsylvania; Physician to St. Joseph's Hospital; Fellow of the College of Physicians; formerly Assistant Pathologist to the Philadelphia Hospital, etc.

Illustrated by Photographs and Wood-Engravings. About 225 pages. Octavo. Bound in Cloth.

Price, post-paid, in the United States and Canada, $1.50, net; in Great Britain, 8s. 6d.; in France, 9 fr. 35.

Drs. Keating and Edwards have produced a work that will give material aid to every doctor in his practice among children. The style of the book is graphic and pleasing, the diagnostic points are explicit and exact, and the therapeutical resources include the novelties of medicine as well as the old and tried agents.—*Pittsburgh Med. Review.*

It is not a mere compilation, but a systematic treatise, and bears evidence of considerable labor and observation on the part of the authors. Two fine photographs of dissections exhibit mitral stenosis and mitral regurgitation; there are also a number of wood-cuts. —*Cleveland Medical Gazette.*

LIEBIG and ROHÉ

Practical Electricity in Medicine and Surgery.

By G. A. LIEBIG, JR., PH D., Assistant in Electricity, Johns Hopkins University; Lecturer on Medical Electricity, College of Physicians and Surgeons, Baltimore; Member of the American Institute of Electrical Engineers, etc.; and GEORGE H. ROHE, M.D., Professor of Obstetrics and Hygiene, College of Physicians and Surgeons, Baltimore; Visiting Physician to Bay View and City Hospitals; Director of the Maryland Maternité; Associate Editor "Annual of the Universal Medical Sciences," etc.

Profusely Illustrated by Wood-Engravings and Original Diagrams, and published in one handsome Royal Octavo volume of 383 pages, bound in Extra Cloth.

The constantly increasing demand for this work attests its thorough reliability and its popularity with the profession, and points to the fact that it is already THE standard work on this very important subject. The part on Physical Electricity, written by Dr. Liebig, one of the recognized authorities on the science in the United States, treats fully such topics of interest as Storage Batteries, Dynamos, the Electric Light, and the Principles and Practice of Electrical Measurement in their Relations to Medical Practice. Professor Rohé, who writes on Electro-Therapeutics, discusses at length the recent developments of Electricity in the treatment of stricture, enlarged prostate, uterine fibroids, pelvic cellulitis, and other diseases of the male and female genito-urinary organs. The applications of Electricity in dermatology, as well as in the diseases of the nervous system, are also fully considered.

Price, post-paid, in the United States and Canada, $2.00, net; in Great Britain, 11s. 6d.; France, 12 fr. 40.

Any physician, especially if he be a beginner in electro-therapeutics, will be well repaid by a careful study of this work by Liebig and Rohé. For a work on a special subject the price is low, and no one can give a good excuse for remaining in ignorance of so important a subject as electricity in medicine.—*Toledo Medical and Surgical Reporter.*

The entire work is thoroughly scientific and practical, and is really what the authors have aimed to produce, "a trustworthy guide to the application of electricity in the practice of medicine and Surgery."—*New York Medical Times.*

In its perusal, with each succeeding page, we have been more and more impressed with the fact that here, at last, we have a treatise on electricity in medicine and surgery which amply fulfills its purpose, and which is sure of general adoption by reason of its thorough excellence and superiority to other works intended to cover the same field.—*Pharmaceutical Era.*

After carefully looking over this work, we incline to the belief that the intelligent physician who is familiar with the general subject will be greatly interested and profited.—*American Lancet.*

Medical Publications of F. A. Davis, Philadelphia.

The Medical Bulletin Visiting-List or Physicians' Call Record.

ARRANGED UPON AN ORIGINAL AND CONVENIENT MONTHLY AND WEEKLY PLAN FOR THE DAILY RECORDING OF PROFESSIONAL VISITS.

Frequent Rewriting of Names Unnecessary.

THIS Visiting-List is arranged so that the names of patients need be written but ONCE a month instead of FOUR times a month, as in the old-style lists. By means of a new feature, a simple device consisting of STUB OR HALF LEAVES IN THE FORM OF INSERTS, the first week's visits are recorded in the usual way, and the second week's visits are begun by simply turning over the half-leaf without the necessity of rewriting the patients' names. This very easily understood process is repeated until the month is ended and the record has been kept complete in every detail of VISIT, CHARGE, CREDIT, etc., and the labor and time of entering and transferring names at least THREE times in the month has been saved. There are no intricate rulings; not the least amount of time can be lost in comprehending the plan, for it is acquired at a glance.

THE THREE DIFFERENT STYLES MADE.

The **No. 1 Style** of this List provides space for the DAILY record of seventy different names each month for a year; for physicians who prefer a List that will accommodate a larger practice we have made a **No. 2 Style**, which provides space for the daily record of 105 different names each month for a year, and for physicians who may prefer a Pocket Record-Book of less thickness than either of these styles we have made a **No. 3 Style**, in which "The Blanks for the Recording of Visits in" have been made into removable sections. These sections are very thin, and are made up so as to answer in full the demand of the largest practice, each section providing ample space for the DAILY RECORD OF 210 DIFFERENT NAMES for two months; or 105 different names daily each month for four months; or seventy different names daily each month for six months. Six sets of these sections go with each copy of No. 3 STYLE.

SPECIAL FEATURES NOT FOUND IN ANY OTHER LIST.

In this No. 3 STYLE the PRINTED MATTER, and such matter as the BLANK FORMS FOR ADDRESSES OF PATIENTS, Obstetric Record, Vaccination Record, Cash Account, Birth and Death Records, etc., are fastened permanently in the back of the book, thus reducing its thickness. The addition of one of these removable sections does not increase the thickness more than an eighth of an inch. This brings the book into such a small compass that no one can object to it on account of its thickness, as its bulk is VERY MUCH LESS than that of any visiting-list ever published. Every physician will at once understand that as soon as a section is full it can be taken out, filed away, and another inserted without the least inconvenience or trouble. *Extra or additional sections will be furnished at any time for 15 cents each or $1.75 per dozen.* This Visiting-List contains calendars, valuable miscellaneous data, important tables, and other useful printed matter usually placed in Physicians' Visiting-Lists.

Physicians of many years' standing and with large practices pronounce it THE BEST LIST THEY HAVE EVER SEEN. It is handsomely bound in fine, strong leather, with flap, including a pocket for loose memoranda, etc., and is furnished with a Dixon lead-pencil of excellent quality and finish. It is compact and convenient for carrying in the pocket. Size, 4 x 6⅞ inches.

IN THREE STYLES.	NET PRICES.
No. 1. Regular size, to accommodate 70 patients daily each month for one year, . . .	**$1.25**
No. 2. Large size, to accommodate 105 patients daily each month for one year, ...	**$1.50**
No. 3. In which the "Blanks for Recording Visits in" are in removable sections, . . .	**$1.75**
Special Edition for Great Britain, without printed matter, ...	**4s. 6d.**

N. B.—The Recording of Visits in this List may be Commenced at any time during the Year.

Medical Publications of F. A. Davis, Philadelphia.

Physician's All-Requisite Time- and Labor-Saving Account-Book.

BEING A LEDGER AND ACCOUNT-BOOK FOR PHYSICIANS' USE, MEETING ALL THE REQUIREMENTS OF THE LAW AND COURTS.

Designed by WILLIAM A. SEIBERT, M.D., of Easton, Pa.

Probably no class of people lose more money through carelessly kept accounts and overlooked or neglected bills than physicians. Often detained at the bedside of the sick until late at night, or deprived of even a modicum of rest, it is with great difficulty that he spares the time or puts himself in condition to give the same care to his own financial interests that a merchant, a lawyer, or even a farmer devotes. It is then plainly apparent that a system of bookkeeping and accounts that, without sacrificing accuracy, but, on the other hand, ensuring it, at the same time relieves the keeping of a physician's book of half their complexity and two-thirds the labor, is a convenience which will be eagerly welcomed by thousands of overworked physicians. Such a system has at last been devised, and we take pleasure in offering it to the profession in the form of The Physician's All-Requisite Time- and Labor- Saving Account-Book.

There is no exaggeration in stating that this Account-Book and Ledger reduces the labor of keeping your accounts more than one-half, and at the same time secures the greatest degree of accuracy. We may mention a few of the superior advantages of The Physician's All-Requisite Time- and Labor- Saving Account-Book, as follows :—

First—Will meet all the requirements of the law and courts.
Second—Self-explanatory; no cipher code.
Third—Its completeness without sacrificing anything.
Fourth—No posting; one entry only.
Fifth—Universal; can be commenced at any time of the year, and can be continued indefinitely until every account is filled.
Sixth—Absolutely no waste of space.
Seventh—One person must needs be sick every day of the year to fill his account, or might be ten years about it and require no more than the space for one account in this ledger.
Eighth—Double the number and many times more than the number of accounts in any similar book; the 300-page book contains space for 900 accounts, and the 600-page book contains space for 1800 accounts.
Ninth—There are no smaller spaces.
Tenth—Compact without sacrificing completeness; every account complete on same page—a decided advantage and recommendation.
Eleventh—Uniform size of leaves.
Twelfth—The statement of the most complicated account is at once before you at any time of month or year—in other words, the account itself as it stands is its simplest statement.
Thirteenth—No transferring of accounts, balances, etc.

To all physicians desiring a quick, accurate, and comprehensive method of keeping their accounts, we can safely say that no book as suitable as this one has ever been devised. A descriptive circular showing the plan of the book will be sent on application.

FOR FEMALE DISEASES.

MICAJAH'S
Medicated Uterine Wafers

A Remedy for the Local Treatment of Diseases Peculiar to Women, as

CHRONIC INFLAMMATION AND ENGORGEMENT OF THE WOMB, ULCERATION, LEUCORRHŒA, IRREGULAR, SUPPRESSED, AND PAINFUL MENSTRUATION, AND THE

Irregularities Incidental to Change of Life.

APPLIED IN THE MANNER DIRECTED:—
The remedy is quickly absorbed and *acts by stimulating the Hypogastric Plexus of Nerves*, and by this means restores and maintains the healthy functions of the organs to which this plexus of nerves is distributed.

Norwood, Mo., July 23, 1887.
THIRTY-FIVE YEARS. I have been practising medicine thirty-five years and have never found anything to equal your wafers. J. S. ALLEN, M.D.

Lindale, Tex., March 11, 1883.
THIRTY YEARS. I have been engaged in the practice of medicine in Texas for the past thirty years, and have never found a remedy to beat your wafers.
L. R. ROBINSON, M.D.

Holton, Ind., Jan. 2, 1888.
FORTY YEARS. After forty years' practice and careful study of female diseases, I confidently say for all diseases, organic or functional, your wafers cap the climax and distance all competitors. C. H. CASS, M.D.

Coronado, Kan., July 23, 1888.
A GODSEND. The wafers are indeed a Godsend to suffering women. A. R. KNAPP, M.D.

Harrisburg, Ore., June 14, 1887.
WONDERFUL CURES. Your Medicated Uterine Wafers have effected wonderful cures in this vicinity.
H. A. DAVIS, M.D.

Palestine, La., May 14, 1887.
MORE, TOO. The wafers are all that is claimed for them, and more, too. D. H. SPRINGFIELD, M.D.

Butlerville, Ark., May 12, 1887.
NO EQUAL. For what you recommend the wafers they have no equal. DR. D. M. SLAUGHTER.

The price of a box containing 25 Wafers, or 3 months' treatment, is $1.00.
Six boxes for $5.00.

To Physicians not acquainted with the merits of the wafers, a sample will be mailed on application. Address

SYR. HYPOPHOS. CO., FELLOWS

Contains the Essential Elements of the Animal Organization—Potash and Lime;

The Oxidising Agents—Iron and Manganese;

The Tonics—Quinine and Strychnine;

And the Vitalizing Constituent—Phosphorus; the whole combined in the form of a Syrup with a **Slightly Alkaline Reaction.**

It Differs in its Effects from all Analogous Preparations; and it possesses the important properties of being pleasant to the taste, easily borne by the stomach, and harmless under prolonged use.

It has Gained a Wide Reputation, particularly in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs. It has also been employed with much success in various nervous and debilitating diseases.

Its Curative Power is largely attributable to its stimulant, tonic, and nutritive properties, by means of which the energy of the system is recruited.

Its Action is Prompt; it stimulates the appetite and the digestion, it promotes assimilation, and it enters directly into the circulation with the food products.

The prescribed dose produces a feeling of buoyancy, and removes depression and melancholy; *hence the preparation is of great value in the treatment of mental and nervous affections.* From the fact, also, that it exerts a double tonic influence, and induces a healthy flow of the secretions, its use is indicated in a wide range of diseases.

NOTICE—CAUTION.

The success of Fellows' Syrup of Hypophosphites has tempted certain persons to offer imitations of it for sale. Mr. Fellows, who has examined samples of several of these, ***finds that no two of them are identical,*** and that all of them differ from the original in composition, in freedom from acid reaction, in susceptibility to the effects of oxygen when exposed to light or heat, ***in the property of retaining the strychnine in solution,*** and in the medicinal effects.

As these cheap and inefficient substitutes are frequently dispensed instead of the genuine preparation, physicians are earnestly requested, when prescribing the Syrup, to write "Syr. Hypophos. ***Fellows.***"

As a further precaution, it is advisable that the Syrup should be ordered in the original bottles; the distinguishing marks which the bottles (and the wrappers surrounding them) bear, can then be examined, and the genuineness—or otherwise—of the contents thereby proved.

Medical Letters may be addressed to

Mr. FELLOWS, 48 Vesey Street, New York.

An Ideal Pepsin!

PHYSICIANS PRESCRIBE

P., D. & CO.'S

ASEPTIC PEPSIN.

Pepsins as heretofore known have left very much to be desired, most of them indicating by their odor the presence of putrescent mucus and other objectionable constituents which must necessarily prove irritating, especially to the delicate stomach of an infant, invalid or dyspeptic.

We now supply a new and improved Pepsin Product (Aseptic Pepsin, 1 to 4000, P., D. & Co.'s), in the full confidence that it will at once recommend itself to the favorable attention of the Medical Profession.

It is twice as active as any other pepsin now on the market. and by the process of manufacture which we pursue, is deprived of all septic constituents. This process renders it very palatable so that the most fastidious palate could not possibly object to its taste.

Samples and literature will gladly be supplied upon application.

MANUFACTURED ONLY BY

PARKE, DAVIS & COMPANY,

DETROIT, NEW YORK AND KANSAS CITY.

DYSPEPSIA.

Deranged digestion is the most common of all human ailments. It is a truism that no organ of the body can preserve its normal integrity *when* its supplying nerve is disordered *by lowered tone,* but this fact is largely ignored in these modern pepsin days—the *cause* being lost sight of whilst trying to remedy the effect. It is well known that any unusual worry or anxiety will upset the digestion of *the neurotic* patient. Hence, in treating dyspepsia, particularly atonic dyspepsia, that form met with in persons of low vitality and poor appetite, there are *two distinct* ***INDICATIONS:*** one is to subserve the needs of general nutrition, the other is to subserve the needs of the nervous system. This can be done by giving the patient good nutritious food and a good nerve tonic. This explains why such remarkable results follow the daily use of ***CELERINA*** in all dyspeptic troubles.

HYDROLEINE

(HYDRATED OIL)

A True Tonic Effect

Is obtained by the use of pepsin to assist weakened digestive organs,---a more rational course than to overtax them by stimulating the appetite. Armour's Pepsin Tablets (3 grains each) are pure pepsin of exceptional power and agreeable odor and taste. Samples furnished.

Armour & Company
Chicago.

WARNER & CO.'S LITHIA SALTS IN TREATMENT OF RHEUMATISM.

BROMO LITHIA.

(Warner & Co. Founded 1856.)

Each Dessertspoonful contains: ℞ Salicylate Lithia 10 grs. and Brom. Soda 10 grs.

Bromo Lithia is an extremely potent remedy in the treatment of Rheumatism, Rheumatic Gout and Gouty Diathesis, originated by Wm. R. Warner & Co. It consists of Salicylate Lithium 10 grs., and Bromide Sodium 10 grs., in each dessertspoonful.

GRANULAR EFFERVESCENT

Bromide of Lithia

Each teaspoonful contains five grains of the chemically pure salt.

This preparation has been strongly recommended as a remedy for Epilepsy and as a Hypnotic of great value.

GRANULAR EFFERVESCENT

Salicylate of Lithia

Dose:—A teaspoonful containing ten grains of Salt.

A convenient and pleasant remedy in Gout and Rheumatism.

This preparation is intended for physicians' use and will be found to possess advantages over Salicylic Acid, being less irritating to the stomach, and combining the efficacy of Lithia and Salicylic Acid.

GRANULAR EFFERVESCENT

Salicylate of Sodium

ANTI-RHEUMATIC.

Each heaping teaspoonful contains ten grains of Salicylate of Sodium.

Salicylate of Sodium is now generally preferred to other forms of Salicylic Acid, owing to its greater solubility, etc.

GRANULAR EFFERVESCENT

Citrate Lithia

Each heaping teaspoonful contains four grains of the chemically pure salt. Valuable in Rheumatic, Gouty, and analogous disorders, and acceptable to delicate stomachs where the Carbonate is not well borne.

GRANULAR EFFERVESCENT

Lithiated Potash

Each heaping teaspoonful contains five grains of Carb. Lithia and ten grains of Bi-Carb. Potash.

GRANULAR EFFERVESCENT

Carbonate Lithia

Each heaping teaspoonful contains four grains of the chemically pure salt. A remarkable and often magical resolvent of Gouty Rheumatic deposits.

Dr. A. Garrod, a well-known English authority on Gout, who was the first physician to introduce the Lithia Salts in the treatment of the gouty diathesis, states that their action is materially increased by being administered in a freely diluted form. The effervescing salts of Lithia furnish an easy and elegant way of applying Dr. Garrod's methods.

A REMEDY IN HEADACHE, INSOMNIA, ETC.

Prepared by WM. R. WARNER & CO., Chemists,

PHILADELPHIA. NEW YORK. LONDON, ENGLAND.

INGLUVIN

Superior to Pepsin of the Hog. A Powder Prescribed in Same Dose, Manner, and Combination.

CH. MARCHAND'S

PEROXIDE OF HYDROGEN

(MEDICINAL) H_2O_2 (ABSOLUTELY HARMLESS.)

Most powerful bactericide and pus destroyer.
Endorsed by the medical profession.
Uniform in strength, purity, stability.
Retains germicidal power any length of time.
Taken internally or applied externally with perfect safety.

Send for free book of 72 pages, giving articles by the following contributors:

IMPERIAL GRANUM.

IMPERIAL GRANUM is one of those carefully and conscientiously prepared foods that never disappoint the doctor in its administration. We have never seen a stomach that could not retain it, no matter how inflamed it might be. It will at once be seen what a valuable aid this is to the physician in the treatment of all graver forms of gastric diseases.—*The Prescription, Feb. '91.*

FOR several years we have used and prescribed IMPERIAL GRANUM, both in private and hospital practice, and have not as yet recorded a single case of failure to obtain the most satisfactory results. Especially is it serviceable in our hospital wards, and its uniformity may always be relied upon.—*Ensworth Hospital, St. Joseph, Mo. May 15, 1891.*

IMPERIAL GRANUM is a good and well made powder of pleasant flavor * * Contains no trace of any impurity.—*The Lancet, London, Eng., July 12th, 1890.*

IMPERIAL GRANUM is acceptable to the palate and also to the most delicate stomach AT ALL PERIODS OF LIFE.—*Annual of the Universal Medical Sciences, '90.*

IMPERIAL GRANUM is an invalid food of unrivalled purity, very palatable, and of especial value in typhoid fevers, inanition, and enteric troubles generally. Its sale is world wide.—*The Homeopathic Recorder, Philadelphia, Pa., May, 1890.*

IMPERIAL GRANUM.—The greatest possible care is used in its manufacture, as we can testify, having visited the factory. Absolute cleanliness prevails, and the greatest care is taken to have the product absolutely uniform.—*The Christian Union, New York, July 4, '90.*

IMPERIAL GRANUM is a food that has attained a high and standard reputation by the merit of actual use for a long period of time.—*Medical Summary, Philadelphia, Pa., July, '88.*

IMPERIAL GRANUM is very highly recommended and endorsed by the best medical authority in the country, and deserves a trial at the hands of the profession.—*North American Practioner, Chicago, Ill., July, '91.*

IMPERIAL GRANUM has stood the test of many years, and has not been displaced by any food yet introduced, while many competing kinds of prepared foods have come and gone, and have been missed by few or none. But this will have satisfactory results in nutrition far into the future, because it is based on merit and proven success in the past.—*The Pharmaceutical Record, New York, March 19, 1891.*

IMPERIAL GRANUM—"Of the preparations so varied and so highly commended by those who put them on the market, IMPERIAL GRANUM seems to hold the first place in the estimation of medical observers.—*New York Medical Record, Vol. 13, No. 23.*

IMPERIAL GRANUM is a prepared food that has acquired a very high reputation for its nutritive and medicinal excellence, and we have found it adapted to very young children as well as adults—in fact, we have used it successfully with children from birth.—*The Post Graduate Journal, New York, April, '90.*

SOLD BY DRUGGISTS. **Shipping Depot, JOHN CARLE & SONS, New York.**

THOMPSON'S

MALTED BEEF.

A Pure Liquid Food and Nutritive Tonic.

Made by the Combination of a SUPERIOR Malt Extract with a PURE Extract of Beef.

Unsurpassed in Cases of Debility, Wasting Diseases, Dyspepsia, Convalescence, etc.

THOMPSON'S

MALTED HOP TONIC.

A SUPERIOR EXTRACT OF MALT AND HOPS.

Containing a LARGER Percentage of Extractive Matter and a SMALLER Percentage of Alcohol than any Extract in the Market.

Made from the Choicest Barley-Malt and Hops. Warranted Absolutely Pure. It will be found invaluable as a Tonic, without Depressing After-Effects.

FOR NURSING MOTHERS

IT IS SUPERIOR TO ANY GOODS on sale, and it will be found an EXCELLENT REMEDY in Cases of SLEEPLESSNESS, LOSS OF APPETITE, etc.

A SUCCESSFUL TREATMENT OF CONSUMPTION.

Much benefit has resulted from the universal discussion of tuberculosis brought out by announcements, in recent years, of proposed specific cures of the disease. Among other things, it has been instrumental in convincing the thoughtful members of the profession that this is not necessarily a fatal and incurable disease.

Phthisis pulmonalis is, pre-eminently, an insidious disease. In this fact lies the explanation of the prevalent views as to its absolute fatality. There is no distinct time when health ends and disease begins. Yet there comes a time when the patient and his friends awaken to a realization of the fact that he is a victim of pulmonary tuberculosis. By this time the coarse and graver lesions have become established that make the condition evident to all who observe, and the patient goes rapidly down to death. But long before this were the incipient conditions, which are now recognizable by the more scientific means of accurate diagnosis developed in recent years. During this period the disease is quite amenable to curative treatment.

Another benefit produced by this general discussion has been the final acknowledgment of the value of a method of treatment which, although old, and established in the minds of a few advanced practitioners, yet was not hitherto sufficiently known to the general masses of the profession. This is the specific treatment by the use of the hypophosphites of lime and soda.

A few words as to the rationale of this cure will, we think, place it in a clear light.

It has been observed by the highest authority that sufferers from rheumatism or gout are particularly immune from phthisis. This has been found to be a peculiarity of those possessing the arthritic diathesis, or who are subject to general fibrosis. Loomis observes that, of 70 cases of cured phthisis coming under his personal observation, 52 presented well-marked evidences of general fibrosis. Trudeau reports 21 cases of recovery in which arthritic fibrosis existed, either in the parents or the patients themselves. Now, a patient who has not the lithemic or arthritic diathesis, when attacked by tuberculosis, must be placed under such artificial conditions as favor the formation of calcareous deposits in all diseased areas, the throwing up of a fibrinous wall around the tubercular focus, and thus secure a complete limitation of the disease. This has been abundantly proven to be the result of the use of the hypophosphites of lime and soda. This may be regarded as the production, to a limited extent, of an artificial lithemic diathesis—a conservative fibrosis. Thus the disease is at once stopped in its ravages, and by the very process sought for by other methods of treatment—the cicatrization of cavities and the calcification of diseased foci and their complete isolation from the neighboring sound tissue by a protecting fibrinous wall, or capsule.

Thus we see the chemical researches of Churchill verified by modern pathology, and his conclusions finally accepted as true.

It now remains for you to be sure that you get the pure hypophosphites. Prescribe McArthur's Syrup, which consists of the chemically pure hypophosphites of lime and soda, incorporated in a wholesome syrup. A sample will be sent you, free, you paying express charges. Address, The McArthur Hypophosphite Co., Boston, Mass.

Farbenfabriken vorm. Friedr. Bayer & Co.'s
Pharmaceutical Specialties

PHENACETINE-BAYER

Antipyretic
Analgesic, or
Anodyne

PHENACETINE-BAYER IS A TRUE AND DISTINCT ORGANIC DERIVATIVE, not a mechanical mixture. It is indicated in influenza (la grippe), in all fevers, with or without pain, rheumatism and rheumatoid maladies, neuralgia, bronchitis, phthisis, pertussis, and the gastralgias. Phenacetine-Bayer acts promptly, and is both safe and effective. It is supplied in ounces, tablets and pills.

SULFONAL-BAYER

Hypnotic
Antineurotic
Nerve Sedative

INSOMNIA OF ALL KINDS YIELDS PROMPTLY TO SULFONAL-BAYER. It is useful in simple insomnia and in the cerebral disturbances of insanity. It is a pure hypnotic, a safe and effective remedy, and it does not give rise to a drug habit. As its action is slower than that of the narcotics, it must be administered properly (*see pamphlet*). Sulfonal-Bayer is supplied in ounces, tablets and pills.

EUROPHEN

(A CRESOL-IODIDE IODOFORM SUBSTITUTE)

Antiseptic
Antisyphilitic
Local Stimulant

AS A SUBSTITUTE FOR IODOFORM, Europhen is winning an enviable place in therapeutics. It has a special value in specific lesions; while as a surgical dressing in ulceration, open wounds, and septic conditions of the cavities, it has given excellent results. It is supplied in ounces. Europhen-Aristol, a combined product consisting of equal parts of each medicament, is also supplied in ounces.

ARISTOL

(A THYMOL-IODIDE IODOFORM SUBSTITUTE)

Antisuppurative
Antiseptic
Cicatrisant

THE VALUE OF ARISTOL in all the morbid conditions formerly treated by iodoform is widely recognized. In all external traumatisms, in cavital lesions and in many of the dermatoses it has given very satisfactory results. As a surgical application, it is safe, inodorous and non-toxic. Aristol is supplied in ounces. Europhen-Aristol, a preparation consisting of equal parts of each medicament, is also supplied in ounces.

DESCRIPTIVE PAMPHLETS FORWARDED ON APPLICATION.

W. H. Schieffelin & Co., New York.
